

Full-time, Headquarter Naz-Sciaves, Italy

Project Manager Software Development (m/f/d)

Every year, 13,000 folding gazebos and 75,000 beer garden table sets leave our production facility in Sciaves. Together with our approximately 400 employees, who come from 15 different countries, and our 11 subsidiaries, including in the USA, Spain and the Netherlands, we serve customers all over the world.

As a web developer, you are the architect of our digital innovations. You design user-friendly and powerful applications and help us to constantly push back our technological boundaries.

#thatwork

- Management of our numerous web development projects
- Budget and time planning of the projects
- Allocation of internal and external developer resources
- Ensuring quality assurance

#wishlist

- Experience in web development and Project Management
- Passion for new technologies and solutions
- Passion for new projects and professional and personal development

#benefits

- A balanced working environment and lots of fun
- Space for independent work
- Numerous employee benefits (team events, smart working, further training, health fund, meal vouchers, success bonus, etc.)
- Staff room with healthy snacks and free coffee!
- Yoga room for your well-being

If you would like to shape the future of the company together with the Zingerle Group family, we would be very happy to get to know you.
